REDUCE REUSE RECYCLED

Made from 100% Recycled Plastic
Preserve products are made with 100% recycled plastic, including yogurt cups.

Recyclable
Our toothbrushes and razor handles are completely recyclable into plastic lumber with Recycle's postage-paid mailer - available at recycline.com. Our tableware and kitchen products are recyclable in communities with #5 plastics recycling.

Dishwasher Safe
Preserve Kitchen and Tableware products are dishwasher safe.

Made in the USA
By making our products in the USA, we can ship them shorter distances, using less fuel and limiting our carbon footprint.

Bite Out of the Waste Stream
Every year, Americans toss more than 1.7 million tons of paper, styrofoam and plastic plates and cups*, 17 million pounds of toothbrushes**, and 2 billion razors and razor blades.*

No Animal Testing
No Preserve products or parts have ever been tested on animals.

A wide variety of retailers carry Preserve products. Whole Foods Market® carries all Preserve products. Wal-Mart® and Trader Joe's® carry the Preserve Toothbrush. For a listing of the 7,000+ retailers that carry Preserve, and to order online, visit recycline.com.

Recycline®

Founded in 1996 and located in Waltham, Massachusetts, Recycline makes Preserve® products, everyday household products that offer style and performance at an accessible price—and that are green to the core.
