Preserve® 2 Go is a reusable to-go container on a mission to eliminate the waste of millions of disposable takeaway containers. The Preserve® 2 Go is on the leading edge of a move to reusables. Reusable bags have significantly gained in popularity, and reusable drink containers are enabling consumers to move away from disposable cups. With the Preserve® 2 Go line, we’re changing the culture of single-use disposables in food service.

* Our products have been tested for microwave durability by a leading independent certifier and will not break, crack, or overheat when used for reheating foods in the microwave.

**Specs**
- Made in the U.S.A.
- Made with 50% recycled plastic
- Compatible with OZZI collection system

- Customizable with logos
- The use of Preserve® products in a building may count toward a company’s USGBC’s LEED credits under Sustainable Purchasing—Ongoing Consumables.

**MADE WITH 50% RECYCLED PLASTIC**
The OZZI system & Preserve® 2 Go make reuse easy

How does the OZZI system work?
• A diner puts food in a reusable to-go container and eats it wherever she chooses
• When finished eating, the diner deposits the empty container in an OZZI machine
• The diner receives a token from the OZZI machine which can be exchanged for another reusable to-go container
• Containers are removed from the machine regularly and are properly sanitized for the next use

Complete the Preserve® line with Preserve® Cutlery

Single-Use Medium Weight Cutlery
A great alternative to virgin plastic or compostable single-use cutlery for food service providers.

- Made from 100% post-consumer recycled polypropylene
- Made in the U.S.A.
- BPA + phthalate-free
- Supports zero-waste initiatives
- 100% recyclable in Preserve’s Gimme 5™ program and in communities that accept #5 plastic

Reusable Heavy Duty Cutlery
Preserve® also offers a heavier-duty cutlery that is made from 100% recycled plastic and is dishwasher-safe and recyclable in Preserve’s Gimme 5™ program and in communities that accept #5 plastic.
